Digital  
Schedule

Go to Blackboard and click on the link there or go to **www.kelli.ninja** and click on **Schedules** where you can download a digital copy of this daily schedule to access the links.

Refresh  
your  
Schedule

Make sure to refresh and check the schedule on a regular basis. You should look over homework and what we'll do in class for the week ahead at the beginning of the week, then check it at least one day before each class meeting to have time to complete lessons and homework before coming to class.

View or  
Review  
later

*If you are absent during class time or want to review,* find our class recordings on this playlist: [0311 T/Th @ 11:30](#)

If you have an appointment or cannot attend during class time, you will be counted absent, but you should watch the class lecture through the playlist link above and take notes to turn in at the start of the next class. Again, see the [Class Notes assignment](#) for instructions on turning them in.

However, remember that this is a face-to-face class. If things go wrong with the technology, that's part of the price of missing class. I suggest you make friends with someone in class and contact them about what went on in class as well. In addition, some days are not conducive to recordings as they are based on group-work or other similar activities.
